Consumer Banking & Wealth Management

As the leading bank in Asia, DBS Consumer Banking Group is in a unique position to help our customers realise their dreams and ambitions. As a market leader in the consumer banking business, DBS has a full spectrum of products and services, including deposits, investments, insurance, mortgages, credit cards and personal loans, to help our customers realise their dreams and aspirations at every life stage. Our financial solutions are not only the best in the business – they were made just right for you.

Consumer Deposit & Financial Solution

We play a pivotal role in the bank overseeing two core functions: Deposits and Secure Lending.

We manage a comprehensive range of deposit services that cater to all segments within the bank. Our goal is to ensure that our clients have access to secure, convenient, and innovative deposit solutions, enhancing their banking experience and fostering financial growth.

On the secured lending side, we specialize in wealth lending and mortgage services, providing secure lending options tailored to meet the needs of high-net-worth individuals. Our expertise in this area allows us to offer competitive and customized lending solutions, helping our clients achieve their financial aspirations with confidence.

Digital Banking

We empower our customers to achieve financial wellness and freedom through personalized digital experiences, striving to lead in digital transformation. As the digital landscape evolves, we proactively understand our customers and market trends, making data-driven decisions to drive continuous improvements. We take pride in creating seamless, safe, and joyful banking experiences for our customers.

Financial Solutions Management Group

We manage the bank's comprehensive suite of bancassurance products to investment products and work closely with insurers, asset management companies and investment banks to offer innovative financial products to meet the financial needs for our customers.

As the leading bank in Asia, DBS Consumer Banking Group is in a unique position to help our customers realise their dreams and ambitions. As a market leader in the consumer banking business, DBS has a full spectrum of products and services, including deposits, investments, insurance, mortgages, credit cards and personal loans, to help our customers realise their dreams and aspirations at every life stage. Our financial solutions are not only the best in the business – they were made just right for you.

MarTech

Our mission is to be the go-to brand for exceptional banking experiences. Leveraging advanced AI and marketing technology, we craft impactful campaigns and provide advertising solutions through strategic digital placements to enhance financial literacy and customer experiences. By analyzing both banking and non-banking data, we deliver deep insights that drive improved services and strong business outcomes.

Payments and Platforms

We power the future of finance with cutting-edge solutions in Cards, PayLah! and Unsecured Loans. Our mission is to deliver seamless, secure and innovative payment experiences, making life easier and more rewarding for our customers. Payment methods like Cards and PayLah! enable everyday experiences and be at the forefront of the payments landscape by offering a range of convenient payment methods including Cards and PayLah! Unsecured Loans also falls under our mandate.

Financial Planning & Advisory Strategic & Management Office

We focus on fostering strong relationships and meaningful connections with various stakeholders, including customers, employees, the community, and government agencies. We are dedicated to ensuring exceptional customer engagement, promoting employee well-being, facilitating community development through POSB initiatives, and fostering collaborations with People's Association/Government agencies.

Risk Management Group (RMG) is responsible for the development and maintenance of risk management and internal control frameworks. We provide independent review and challenge to business to ensure that appropriate balance is considered in risk/return decisions. In addition, RMG is responsible for the monitoring and reporting on key risk issues of the Bank. To manage risk effectively and deliver strong financial performance, we invest significantly in our people and infrastructure.

Market & Liquidity Risk

We identify, monitor, analyse, and report market risk and liquidity risk exposures, implementing controls that align with regulatory expectations and the Bank's risk appetite.

Model Validation

We limit the Bank's exposure to model risk by regularly validating all relevant models as mandated, provide in-depth analysis and comments for Senior Management and meet regulatory expectations in this regard.

Operational Risk

We assist the Board and senior management in driving an effective and efficient operational risk management programme across DBS Group to promote the safety and soundness of our operating environment.

Regulatory Portfolio Analytics

We develop credit analytics models and solutions to meet business and regulatory requirements, enable well-informed decision making and support business growth. We also drive Sustainability/climate risk management agenda for the Bank.

Risk Management Group (RMG) is responsible for the development and maintenance of risk management and internal control frameworks. We provide independent review and challenge to business to ensure that appropriate balance is considered in risk/return decisions. In addition, RMG is responsible for the monitoring and reporting on key risk issues of the Bank. To manage risk effectively and deliver strong financial performance, we invest significantly in our people and infrastructure.

Technology Risk

We enhance the bank's technology risk and cybersecurity posture. This includes identifying potential technology resiliency, data and cybersecurity risks associated with existing, evolving and new technology systems and business processes, assessing potential impacts and engaging with other technology leaders on the risk treatment options based on enterprise risk appetite. Risks and mitigation plans are reported to both senior and board-level leadership for review and attention.

Technology

Group Technology enables and empowers the bank with an efficient, nimble and resilient infrastructure through a strategic focus on productivity, quality & control, technology, people capability and innovation.

In Group Technology, we manage the majority of the Bank's operational processes and inspire to delight our business partners through our multiple banking delivery channels.

We offer opportunities in 5 core domains.

Application Development and Support

Create and maintain highly resilient, scalable, high performing and secure end-to-end software and digital solutions to deliver business functionality and enhance user experience.

DevOps and Site-Reliability Engineering

Focus on transforming, governing, and assisting technology teams to achieve improvements in availability, performance, and efficiency for their respective applications/systems.

Information and Cybersecurity

Focus on development, implementation, operations and maintenance of the Bank's cybersecurity strategy, framework and programme to support and sustain effective information and cyber security risk management across the group.

Data Engineering and Artificial Intelligence/ Machine Learning

Focus on the delivery of data science/analytical capabilities across the enterprise. To innovate and optimize data as well as machine learning workflows to enable data-driven business activities at large scale and achieve the targeted business outcomes.

ICT Infrastructure

Enable technologists and the business to succeed through simple, fast, secure and world class cloud services and platforms.
